

TABLE 2. General Statistics by Geographic Areas and Type of Operation: 1963 and 1958

(For explanation of column captions see Appendix A)

Industry, geographic area, and type of operation	1963											1958			
	Establishments		All employees		Production, development, and exploration workers			Value added in mining (\$1,000)	Cost of supplies, etc., and purchase of machinery v installed (\$1,000)	Value of shipments and receipts (\$1,000)	Usable iron ore produced (1,000 long tons)	Capital expenditures (\$1,000)	All employees (number)	Value added in mining (\$1,000)	
	Total	With 20 employees or more	Total	Payroll (\$1,000)	Total (number)	Man-hours	Wages (\$1,000)								
1011 - IRON ORES	208	101	123,083	1,161,57	18,102	34,524	112,781	549,30	309,573	762,1	73,778	96,644	130,113	487,667

Sublevel caving								438,07							
Block caving, shrinkage								2							
Stoping, cut-and-fill								311,76							
Stoping, top								1							
Treatment plants only ...								45,526							
Nonproducing establishments								266,23							
North Central Producing															
Open pits, total															
Mines only															
Mines with treatment															
Nonproducing establishments															

Standard Notes: - Represents zero.

(D) Withheld to avoid disclosing figures for individual companies. (NA) Not available. (X) Not applicable.

General statistics for some States are not shown separately in this table in order to avoid approximately disclosing figures for individual companies or because of the relatively small size of the statistics. Such States with the number of establishments in each State (and in parentheses the number of employees or employment-size range) are: New Jersey 4 (362); Pennsylvania 5 (1,758); Michigan 23 (3,708); Wisconsin 3 (815 including employees at separately reported central offices in Ohio); Missouri, 8 (500-999); South Dakota, 1 (0-4); Maryland, 1 (10-19); North Carolina, 1 (0-4); Georgia, 13 (1,000-2,499); Tennessee, 1 (0-4); Alabama, 28 (500-999); Arkansas, 1 (10-19); Texas, 4 (250-499); Montana, 1 (0-4); Idaho, 1 (0-4); Colorado, 1 (0-4); New Mexico, 2 (5-9); Arizona, 5 (5-9); Washington, 1 (0-4); California, 7 (525); and Alaska, 1 (0-4).

Represents direct-shipping ore, treated ores for consumption, and agglomerates. Includes magnetiferous iron ore valued chiefly for its iron content. Includes production by establishments classified in industries other than iron ore.

Includes production by establishments classified in industries other than iron ore.

For 1963, includes 2,114 employees paid \$23,349 thousand in salaries, and, for 1958, includes 3,712 employees at separately reported central offices and related facilities which were not classified by type of operation.

Includes data for one establishment with combination open pit and underground mining methods.

treatment, purchased fuels and electric energy, contract work, and purchased machinery. (N) Not shown since the cost of supplies, minerals received for treatment, purchased fuels and electric energy, contract work, and purchased machinery, installed exceeded capital expenditures.

Represents mined or treated, but not shipped in 1963.
